* A "producer-grower" is an eligible distributor of pass-thru products of other exempted "producer-growers". In other words, producers who qualify for the "producer-grower" exemption may distribute for each other but only on a pass-thru basis. No producer operating under this exemption may further process product that he (himself) did not raise, slaughter, and process.

** Producer of "other person" is eligible to distribute product from an individual operating under the producer-grower exemption. Product distributed from a producer-grower can be sold to the same outlets as the producer-grower himself. This does not include product he prepared under his "other person" exemption. The "other person" exemption is not eligible to handle any other type of pass thru product.

*** Federal plant only. Other type poultry exemption can also do religious exemption, but permit from Regional Director is not required.
